

**27.01.00 — zen**

so where is my zen  
when

I need it  
?

I need it  
now

I need it  
and how

so where is it  
?

I got zen out the ass

I got style and class

and I got a free pass

when I'm flush

But my zen slips away

like these words that I say

and it all fades to gray

when I'm

[hush]

so I'm asking again

if you know where my zen

went how why or when

but especially where

cause I really do care

and it just isn't fair

can you dig it?

no I don't have the deed

and I don't have the creed

and I don't have my zen

when

I need

it
